How much time did you spend with media yesterday?

U.S. adults will spend 13 hours and 11 minutes (13:11) per day with media in 2022, slightly less than last year (13:13). The net loss will mostly come from a decline in TV time, while a variety of digital activities will experience modest increases.[Insider Intelligence] June 15, 2022

History

- Concerns about media effects have existed since Plato.
- 1960s leads to critical analysis of media often from social scientists outside U.S.
- Now even more need for understanding of media effects due to proliferation of media

Media Literacy definition provided by educators

Media Literacy is a 21st century approach to education. It provides a framework to access, analyze, evaluate, create and participate with messages in a variety of forms — from print to video to the Internet. Media literacy builds an understanding of the role of media in society as well as essential skills of inquiry and selfexpression necessary for citizens of a *democracy.* [Center for Media Literacy]
