Bills Needing Action This Week

*Remember, only authorized members can speak for the League; the Issue Chairs will do that, **so please leave the "Organization" box blank.** A more powerful influence is many voices speaking for themselves rather than many voices speaking for the League.*

There are no bills needing action this week.

Bills We Support

HB 1423/SB 5372 Authorizing the department of natural resources to create and manage a trust land transfer program that moves ownership of trust lands that are determined to be more suitable for natural or wildlife areas, parks, recreation, or open space out of 'trust' status. It also provides revenue to K-12 trust beneficiaries by depositing the timber or lease value of transferred parcels into the Common School Construction Account. The land value of the transferred properties is then used to purchase replacement trust lands that have better income potential for trust beneficiaries. (\$8 million Natural Climate Solutions Account)

The **Governor's Proposed 2024 Supplemental Budget** contains proposals LWVWA supports:

- **Develop forest carbon storage and sequestration projects:** The Recreation and Conservation Office will establish a program to support private, Tribal, and local government landowners as they conduct management practices that go beyond regulatory requirements and increase long-term carbon storage. Pg. 42
- **Upper Green River forest carbon storage:** The Tacoma Public Utilities (TPU) main water source is the upper Green River watershed. A large private timberland holding has become available for purchase. TPU will begin to purchase these lands and manage older forests to protect water quality, increase carbon storage, and improve aquatic habitat for salmon. Pg. 42
- **Community Forest Projects:** LWVWA signed on to a **letter** to Governor Inslee asking for funding for two projects in Whidbey Island and Hoquiam. Pg. 46.

Bills We Are Watching

HB 1078 Concerning urban forest management ordinances. We opposed this bill last year. A new version appears to make use of a tree bank optional in city or county planning.

HB 1971/SB 6193 Concerning a rangeland fire protection association pilot project. "Rangeland fire protection association" means a nonprofit corporation or nonprofit unincorporated association that has entered into an agreement for the detection, prevention, or suppression of wildfires with any agency of the state of Washington or any fire protection service agency. How will this activity be monitored for sustainable forest practices?

HB 2243 Social equity land trust By Request: Department of Natural Resources. By Request: Department of Natural Resources. This bill would create a new trust beneficiary for supporting childcare. DNR could buy new land, harvest it or (potentially) sell it for conversion. Childcare is an important public purpose that needs greater state and federal support. The new WA capital gains is earmarked in part for this purpose and just delivered 500 million to early learning.

HB 2333 AN ACT Relating to assessing the carbon sequestration potential of state-owned lands for the purpose of generating offset credits under the climate commitment act. The bill was entered on Jan. 12 just before this weekly deadline.

SB 6121 Concerning biochar production from agricultural and forestry biomass. Wildland urban interface mapping would be eliminated. All counties, cities, and towns may complete their own map of areas at greatest risk from wildfire. Is there a consistent standard for choosing areas of risk in cities, towns, and counties?

Bills We Oppose

No bills at this time.

How You Can Be Involved

- If you are interested in a particular bill, use the links above to go to the webpage for that bill. These pages include staff summaries and reports including those who testified PRO versus CON on the bill. There is also information about how to access videos of hearings that have been held.
- If your available time permits you to do nothing else, please scan the [LWVWA Legislative Action Newsletter](#) each week (it's distributed each Sunday during the legislative session) and respond to the Action Alerts .
- If you have more time and are interested in a particular topic, we always appreciate and can use your assessments of bills, law implementation, and future concerns. For Forests

topics send assessments of a few paragraphs to a few pages and include the sources of the facts you rely on. Send them to **Kate Lunceford**, Forests Issue Chair.

- If you want to engage more in a current topic, such as **Dept. of Natural Resources Sustainable Harvest Calculation** or other forest issues, one of our coalition partners probably has a focused action project underway that you can join. Contact me to discuss opportunities.

Kate Lunceford, Forests Issue Chair.
